

## PROJECT: CITY GUIDE

# CHOJNICE

*Welcome to our town – Chojnice!*

*Chojnice is situated in the north-west of Poland in the Pomerania region about 120 km from Gdańsk. There are about 40 000 inhabitants living in our town.*

*We live in Chojnice and we also go to school here. We love our town because there are a lot of nice people to meet, beautiful places to see and interesting things to do. It is worth visiting Chojnice because of the all the tourist attractions and its ideal location.*

Park Tysiąclecia (Millenium Park)

It is a  
place  
summer

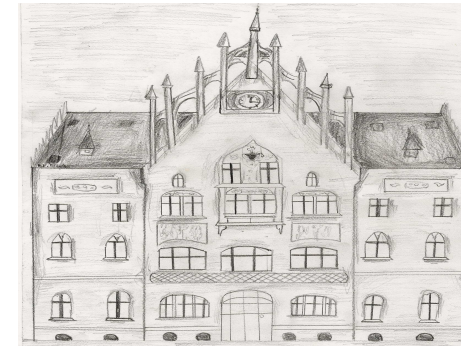

It was renovated last year and it is the most beautiful  
park in the city. There are many attractions for people in all age. In the  
summer you can go fishing in the pond, feed the ducks, sit on the bench

or use the sports equipment in the fresh air.

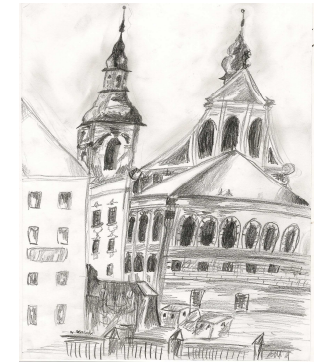

## Rynek i fontanna (The town market and the fountain)

Go to the town market where you can see the amazing fountain and the town hall. Around the market there are colourful apartment houses and shops. We often eat ice cream on the bench next to the fountain and feed the pigeons.

# Bazylika pod wezwaniem *Świętego* Jana Chrzciciela

(Basilica of the Decapitation of St. John Baptist)

The church was built between the years 1340 - 1360 from the red brick in Gothic style. Unfortunately, the church had been robbed and damaged in the fire many times. On the eleventh of March 1993 the Pope John Paul II named the church the Basilica. It is now the main center of religious life in Chojnice.

## Centrum Handlowe K&M (K&M Shopping Mall)

It is situated in the city center so it is very easy to get there on foot. It has been open since last year and it is the newest and the biggest gallery in Chojnice. It is open every day and there are a lot of brand mark boutiques. We love going shopping here because there is a moving stairway and we enjoy going up and down. We usually do the shopping in K&M with our parents at the weekends.

Brama Człuchowska i Muzeum Historyczno-Etnograficzne
